

This architectural cross-section drawing illustrates the structural details of a building facade. The drawing includes the following elements and dimensions:

- Roof Structure:** The roof consists of a concrete slab (stippled pattern) supported by a steel beam (hatched pattern). A small section of the roof is shown above the central entrance.
- Wall and Floor Slab:** The main wall and floor slab are made of concrete (stippled pattern). The floor slab is shown below the ground level.
- Structural Columns:** The structure is supported by several vertical columns (hatched pattern) at the base.
- Dimensions:**
  - Overall height of the building: 7.20 m.
  - Height of the main floor slab above the ground level: 3.60 m.
  - Height of the ground floor slab above the foundation: 3.20 m.
  - Height of the foundation below the ground level: 0.40 m.
  - Horizontal distance from the left edge of the wall to the first column: 3.60 m.
  - Horizontal distance between columns: 3.60 m.
  - Horizontal distance from the last column to the right edge of the wall: 3.60 m.
  - Horizontal distance from the left edge of the wall to the ground level: 0.00 m.
  - Horizontal distance from the last column to the ground level: 0.00 m.
- Materials:**
  - Concrete: Stippled pattern.
  - Steel: Hatched pattern.
  - Foundation: Pattern with small circles.
  - Ground: Pattern with larger circles.

Architectural section drawing of a building. The drawing shows a staircase with steps and a handrail. The staircase is located on the right side of the drawing. The structural elements include columns and beams. The dimensions are indicated as follows:

- 7.20 m: Total height of the staircase.
- 3.60 m: Height of the upper flight of the staircase.
- 0.00 m: Height of the lower flight of the staircase.
